MedAspire Program

2025 SUMMER
PROGRAM JULY 07 ▶ 20

*Your Medical Journey Begins Here.
Join TMU. Become a Leader in Medicine.*

AS A MEMBER OF THE MEDICAL PROFESSION:

I SOLEMNLY PLEDGE

To dedicate my life to the service of
humanity

THE HEALTH AND WELL BEING OF MY PATIENT

Will be my first consideration

I WILL RESPECT

The autonomy and dignity of my patient

I WILL MAINTAIN

The utmost respect for human life

I WILL NOT PERMIT

Considerations of age, disease or
disability, creed, ethnic origin, gender,
nationality, political affiliation, race,
sexual orientation, social standing or any
other factor to intervene between my duty
and my patient

I WILL RESPECT

The secrets that are confided in me, even
after the patient has died

I WILL PRACTISE

My profession with conscience and
dignity and in accordance with good
medical practice

I WILL FOSTER

The honour and noble traditions of the
medical profession

I WILL GIVE

To my teachers, colleagues, and
students the respect and gratitude that
is their due

I WILL SHARE

My medical knowledge for the benefit
of the patient and the advancement of
healthcare

I WILL ATTEND TO

My own health, well-being, and abilities
in order to provide care of the highest
standard

I WILL NOT USE

My medical knowledge to violate human
rights and civil liberties, even under
threat

I MAKE THESE PROMISES

Solemnly, freely, and upon my honour

World Medical Association
Declaration of Geneva | 2017

Program Overview

Taipei Medical University (TMU) proudly presents the TMU MedAspire Program, a prestigious summer initiative designed for high school and college students from the United States, Canada, Europe, Taiwan, and beyond who aspire to explore pre-medical studies and global healthcare perspectives.

This intensive program offers a unique opportunity to engage in a rigorous MedAspire curriculum led by renowned physicians, scientists, entrepreneurs, and professors from TMU and its affiliated healthcare system.

Participants will gain hands-on medical experience, explore cutting-edge biomedical research, and develop a deeper understanding of the medical profession. Beyond academics, students will immerse themselves in Taiwan's rich cultural heritage, guided by top TMU medical students who provide a genuine and immersive experience of medical student life in Taiwan.

Program Fee & Inclusions

Fee NT\$ 158,600

Per participant

Cash Payment Discount

NT\$ 155,350

Per participant off for bank transfers

Group Discount

NT\$ 155,350

Per participant (for groups of 3 or more)

Per participant (for bank transfer)

Notice on Currency and Payment Adjustment

Due to ongoing fluctuations in international exchange rates, and in order to ensure the sustainability of program quality and the fairness of promotional offers, all program fees will be calculated and collected in New Taiwan Dollars (NTD) starting from 1st May, 2025.

Participants who have successfully registered may:

Complete payment directly in NTD via bank transfer; or Pay in USD based on the prevailing NTD-USD exchange rate at the time of payment. We kindly appreciate your understanding and cooperation.

What's Included?

Tuition for all MedAspire courses and lab activities

- Medical simulation & laboratory materials
- Weekend cultural excursions and guided tours
- Daily meals (breakfast, lunch, and dinner)
- TMU On-campus accommodation (shared rooms)
- 4-person air-conditioned room

(with desk below and wooden beds on top, sleeping bag & Washing tools, other items as personal habit @No. 92-1, lane 22, Alley 284, WuXing Street, Xinyi District, Taipei City)

The program provides on-campus accommodation at Taipei Medical University's student dormitory. No refunds will be issued for participants who choose not to stay in the dormitory.

• Accommodation Policy for Participants Under 18

All participants under the age of 18 are required to stay in Taipei Medical University's student dormitory for the duration of the program. For those who choose not to stay in the dormitory, a Parental Consent Form must be signed by a parent or legal guardian. Additionally, parents or guardians must personally arrange daily transportation for the participant to and from the program venue.

• Optional Airport Transfer Service

For participants requiring additional airport pickup and drop-off services, arrangements can be made upon successful registration. Additional fees apply. Please contact the program organizer for assistance and coordination.

• Refund Policy

Participants who wish to withdraw from the program may request a refund based on the following schedule:

- More than **28 days before** the program start date (including the first day):
90% of the paid fee will be refunded.
- Between **28 and 14 days before** the program start date (including the first day):
80% of the paid fee will be refunded.
- Between **14 and 10 days before** the program start date (including the first day):
70% of the paid fee will be refunded.
- Within **10 days before** the program start date:
No refund will be provided.

• Exclusions from Program Fees (Not Included):

- Round-trip airfare
- Personal medical expenses
- Extra accommodation, meals, or transportation outside program dates
- Other personal expenses

• Important Notes & Requirements

- Participants are responsible for their own airfare to and from Taiwan
- A valid passport and appropriate visa (if required) must be secured prior to travel
- Health insurance covering the duration of the program is mandatory
- Participants must adhere to TMU's academic integrity and behavioral guidelines throughout the program
- Parents/guardians will receive regular updates on student progress and activities

• Laptop Requirement

Participants are required to complete course reports, research tasks, and international academic poster presentations, which involve information retrieval and academic writing. Please bring a personal laptop or other necessary electronic learning devices.

Program Curriculum

The TMU MedAspire Program is a distinguished 14-day immersive medical education experience designed for high school and college students with aspirations to enter the medical profession. Hosted by Taipei Medical University (TMU)—one of Asia’s most prestigious medical institutions—this program offers a comprehensive, hands-on approach to pre-medical studies, integrating cutting-edge scientific research, clinical exposure, medical innovation, and global healthcare perspectives.

Participants will engage in rigorous academic coursework, interactive laboratory sessions, and state-of-the-art medical simulation training, led by renowned physicians, scientists, entrepreneurs, and faculty members from TMU and its affiliated healthcare system. Beyond the classroom, students will gain valuable cultural insights by exploring Taiwan’s historic landmarks, vibrant cities, and renowned healthcare ecosystem.

This program is more than just a summer camp—it is a transformative journey that provides students with a head start in medical education, helping them refine their career aspirations, enhance their academic portfolios, and build a global network of future medical professionals.

Comprehensive MedAspire Curriculum: A Multidisciplinary Approach

The TMU MedAspire Program is structured around five key learning areas, ensuring participants receive a well-rounded and intensive pre-med education that prepares them for the challenges of medical school.

1 Core Medical Sciences: Building a Strong Foundation

Understanding the human body is the cornerstone of medical education. In this segment, students will explore:

Human Anatomy & Physiology

Delve into the structure and function of human tissues and organ systems, essential for future studies in medicine.

Histology & Cellular Biology

Examine the microscopic composition of tissues, gaining insights into cell function and disease pathology.

Microbiology & Parasitology

Investigate bacteria, viruses, and parasites under high-powered microscopes, understanding their role in infectious diseases and immune system responses.

Biotechnology & Regenerative Medicine

Learn about stem cell research, gene therapy, and tissue engineering, exploring the future of personalized medicine and organ regeneration.

Laboratory Experiments

Students will have the exclusive opportunity to observe live microscopic samples, conduct hands-on laboratory experiments, and engage in discussions with biomedical experts who are shaping the future of medicine.

2 Clinical Exposure & Medical Simulation: Training Like a Doctor

Bridging the gap between theoretical knowledge and practical medical skills, this segment provides early clinical exposure through:

Medical Simulation & OSCE Training

Participate in lifelike clinical scenarios, practicing patient assessment, emergency response, and critical decision-making in TMU's internationally accredited Medical Simulation Center.

Basic Life Support (BLS) Certification

Learn and practice life-saving techniques, including CPR, airway management, and defibrillator usage.

Physician's Training Modules:

- **Patient History-Taking Skills**

Develop effective doctor-patient communication techniques, learning how to gather and interpret patient information.

- **Physical Examination Techniques**

Train in clinical skills such as pulse measurement, reflex testing, and cardiovascular assessments, under the supervision of experienced physicians.

- **Electrocardiogram (ECG) Interpretation**

Analyze real patient heart rhythms, identifying normal and abnormal cardiac activity.

Medical school training methods Students will experience the same training methods used in medical school, providing them with a competitive advantage in their future medical education.

3

Medical Innovation & Healthcare Technology: The Future of Medicine

Modern healthcare is driven by innovation, artificial intelligence, and biotechnology. This segment introduces students to:

Artificial Intelligence in Medicine

Learn how machine learning and AI are revolutionizing medical diagnostics, treatment planning, and robotic surgery.

Medical IoT (Internet of Things) & Smart Healthcare

Participate in interactive experiments, exploring how connected devices improve patient monitoring, hospital efficiency, and remote healthcare delivery.

3D-Printed Organs & Future Transplantation

Gain insights into the latest advancements in bioengineering, addressing global organ shortages through 3D bioprinting technologies.

Biomedical Accelerator & Entrepreneurship

Tour TMU's pioneering biomedical accelerator, where medical startups and researchers collaborate to develop groundbreaking healthcare solutions.

This segment inspires students to think like medical innovators, equipping them with knowledge of emerging healthcare trends that will define their future careers.

4

Global Health, Ethics & Resilient Healthcare: Preparing for a Changing World

The world of medicine extends beyond hospitals and laboratories. This segment focuses on:

Medical Ethics & Bioethical Decision-Making

Discuss complex ethical dilemmas faced by healthcare professionals, including genetic engineering, end-of-life care, and organ transplantation ethics.

Public Health & Global Epidemics

Analyze historical and contemporary pandemics, exploring the impact of emerging infectious diseases on global healthcare systems.

Cross-Generational Physician Dialogue

Engage in roundtable discussions with experienced and young physicians, gaining insights into medical careers, global healthcare policies, and leadership in medicine.

This session fosters a deeper understanding of medical ethics, global healthcare challenges, and the role of resilience in modern healthcare.

5 Cultural Immersion & City Exploration: Discovering Taiwan

Beyond academics, the TMU MedAspire Program offers an exciting lineup of cultural experiences, allowing students to discover Taiwan's rich history, vibrant city life, and breathtaking landscapes.

Historical & Cultural Landmarks

• National Palace Museum

Home to over 700,000 ancient Chinese artifacts, providing a deep dive into Asian art, history, and heritage.

• Dadaocheng Herbal Medicine & Tea Ceremony

Experience Taiwan's traditional herbal medicine markets, followed by an authentic tea ceremony highlighting the healing properties of Eastern medicine.

Taipei City & Night Market Adventures

• Taipei 101 & Xinyi District

Visit Taiwan's most iconic skyscraper, exploring world-class shopping, modern architecture, and panoramic city views.

• Shilin & Ningxia Night Markets

Indulge in Taiwan's most famous street food, including bubble tea, oyster omelets, and pineapple cakes.

• Ximending Youth District

Explore the fashion, pop culture, and entertainment hub of Taipei, known as the "Harajuku of Taiwan."

Scenic Coastal Excursions

• Tamsui Old Street & Golden Coast

Wander through colonial-era streets, sample local seafood, and watch a stunning sunset along Taiwan's golden coastline.

These carefully curated cultural experiences ensure that students immerse themselves in Taiwan's dynamic blend of tradition and innovation.

Why Choose TMU MedAspire?

Comprehensive Pre-Med Training

Gain hands-on experience in clinical, biomedical, and ethical aspects of medicine.

Exclusive Access to Top Medical Experts

Learn from world-class professors, physicians, and researchers.

Cutting-Edge Technology & Medical Innovation

Explore AI, 3D-printed organs, and smart healthcare solutions.

Global Network & Cultural Immersion

Connect with like-minded future medical professionals from around the world.

Unforgettable Adventures in Taiwan

Discover a country that blends ancient heritage with modern medical excellence.

Achieve More with TMU MedAspire Your Gateway to Medical Excellence!

By completing the TMU MedAspire Program, you will gain invaluable pre-medical training, hands-on clinical experience, and internationally recognized credentials that will set you apart in your journey toward a medical career.

Program Completion Benefits

- **Training Certificate Awarded by Prestigious International Healthcare Institutions**
- **Obtain Basic Life Support (BLS) Certification**
Essential for Emergency Medical Response
- **Receive an OSCE Examination Certificate**
A Key Assessment in Clinical Competency
- **Present at an International Academic Conference**
Showcase Your Medical Research through a Professional Academic Poster
- **Gain Volunteer Service Certification**
Demonstrate Your Commitment to Community and Healthcare

Relevant certificates will be awarded by the global partners and international healthcare institutions collaborating with this program.

Program Participation & Certification Policy

Participants are required to fully attend and complete the entire program. To receive academic credit certification and relevant certificates, students must meet the following requirements:

- **100% attendance in all scheduled courses and activities.**
- **Successful completion of all assessments and evaluations.**

Participants who fail to complete the required coursework, assessments, or miss any sessions will not be eligible for refunds, certificates, or credit verification.

Live yourself as a light
Because you don't know
Who by thy light,
Out of darkness.

Keep the goodness in your heart,
Because you don't know,
Who would take advantage of your kindness,
Out of despair.

Keep faith in your heart,
Because you don't know,
Who would take your faith,
Out of the confusion.

Trust in your own power,
Because you don't know,
Who would believe in you,
I began to believe in myself.

Keep the confidence in your heart,
Because you don't know,
There are people who believe in you,
I began to be confident and self-reliant,

Anytime anywhere under any circumstances.

Life Influence Life

—Rabindranath Tagore
